Information to all SICO agents

The government has made new decisions regarding public events because there is an increased spread of infection in Sweden. *This means that no agents are allowed in our arenas until further notice.* All clubs are also informed of this decision. This applies to all games in the SHL, Hockeyallsvenskan and HockeyEttan from today.

As soon as the situation improves, we will return with new information.
If you have any questions, you are welcome to contact me.
